

Doña Paula

2023

## Data sheet

**ALTITUDE SERIES**
**969**

### Oenologist's notes

Its name derives from the average height of the selected parcels for this Blend. Petit Verdot and Bonarda compose this wine that has an intense violet color with black tint. In the nose, Petit Verdot brings aromas blackberries and raspberries. It stands out for its firm tannins and good volume in the mouth.

### Vineyards

In our Finca El Alto in Ugarteche, Luján de Cuyo, we chose the stoniest plots that have the presence of Calcium carbonate, to plant the Petit Verdot at 1030 meters above sea level. In the lowest part of the same vineyard, at about 908 meters of height we have Bonarda, it has the most clay dominate soil with gravel and pebbles. The yield per hectare is 7 to 10 tons, and the irrigation is by drip. The climate of this is farm characterized by its warm days and cool nights, with a thermal amplitude of 14 °C and an average annual rainfall of 250 mm. The training system used is double cordon. At Doña Paula we have always managed our vineyards with sustainable farming practices.

### Vinification

The grapes are harvested from the third week of February to the first week of March. A gentle protective destemming and milling at room temperature are performed. The pressing is gentle, and fermentation takes place at low temperatures in stainless steel tanks to protect the primary aromas

### Technical Information

Alcohol	13.6% vol.
Acidity	5.3 g/l
Residual Sugar	2 g/l
PH	3.75
