## SAUVIGNON BLANC | 2025

Doña Paula Estate Sauvignon Blanc was born in Finca Aluvia, at 1,350 meters above sea level in Gualtallary, where the cool climate and sandy loam soils provide freshness, typicity and a unique identity. It is an elegant and vibrant wine, greenish-yellow in color, with intense and refreshing aromas of wild mint, grapefruit and rue.

### WINEMAKING

The grapes are harvested by hand. Destemming and pressing are carried out in a careful and protective manner. A skin maceration is carried out to extract the varietal character from the skins, and fermentation takes place at low temperature (12 to 15 °C) in stainless steel tanks, thus preserving the freshness and aromas of the wine.
